To Whom It May Concern,

With well earned respect, I confidently recommend the Brunow Construction team of Bob Johnson, senior project manager and Tamara Brunow, President for future Fort Riley projects and other complex construction projects.

I had the good fortune of working with Brunow Construction on two projects that totaled approximately \$300,000.00 for our Range Control lighting renovation and our Environmental renovation of Cameron Springs completed in October 2014. Both projects stands out due to the critical timelines needing to be met. The schedule was one of Fort Riley's most aggressive project timelines undertaken at Fort Riley. The projects were phased to allow partial occupancy of both sites during the four month construction schedule. In order to maintain site electrical, mechanical, and fire life safety systems in occupied spaces while rebuilding; detailed planning, implementation, and communication of those plans with all construction team members and site occupants was critical. Tamara and Bob supported each other seamlessly, worked diligently, and communicated well together and with the team to successfully complete the project.

The Brunow Construction team managed their portion of the submittal, RFI, ASI, COP and Closeout process exceptionally well and were always prepared to proactively identify options and solutions to challenges inevitably occurring in a complex project. Manpower and material procurement were managed well and as adjustments were required Brunow Contracting smoothly made those adjustments to enhance the flow of construction progress.

The success of any complex project depends in large measure on the team assembled and the team's ability to communicate and work collaboratively and unselfishly towards the goal. Brunow Contracting, LLC service to Fort Riley was excellent and their contribution to the construction team commendable. Again, I highly recommend the Brunow Construction team of Bob Johnson and Tamara Brunow and would welcome their contribution to future construction teams I work with. Your inquiries are invited.

Sincerely,

Jennifer Pacheco
MICC Fort Riley
Contracting Officer
